Subject: «*Invitation for participation at the 88th edition of Thessaloniki International Fair*»

Your Excellency,

We have the pleasure to inform you that the 88th edition of the Thessaloniki International Fair (T.I.F), will be organized by the National Exhibition Organization TIF-HELEXPO, from 7-15, September 2024.

The Thessaloniki International Fair is the largest commercial tradeshow in Southeast (SE) Europe and enjoys significant international appeal. It is held annually in September in Thessaloniki, which is the second largest city in Greece and a foremost administrative, cultural, and business hub of SE Europe. TIF attracts a large number of exhibitors, visitors, professionals, and business representatives from across Greece and the neighboring countries.

More than 150,000 visitors were welcomed by last year's edition of the 87th TIF, Bulgaria as the Honored Country and 18 international participations along with the Greek enterprises made the exhibition once more the focal point of Greece's political and economic scene. The people came to the TIF, which retained its dynamism for 9 days, and managed to provide the opportunity for a wealth of business contacts.

This year Germany takes over from Bulgaria and is the Honored Country in the 88th TIF. It will present its full range of potential under the slogan 'Made in Germany' in a 6000-square meter area, namely, the entirety of pavilion 13 of the Thessaloniki International Exhibition Centre.

Innovation and technology from the sectors of renewable energy sources, mobility, or digitization will play the same important role with the thematic units of education, research, nutrition, and culture in the context of the German presence. At the same time, a broad program of thematic days, educational events, networking events, and corporate presentations, as well as a cultural program in the city will tie together Germany's participation as the Honored Country at the 88th TIF.

Therefore, continuing on that successful track and since TIF remains the only Exhibition in Greece which hosts the International Participations as official state participations, we give the opportunity to each country to present its products and commercial capacities to the business world as well as to make its culture and civilization known to the public.
