Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of certain hot-rolled flat products of iron, non-alloy or other alloy steel originating in Türkiye

(C/2026/3536)

Following the publication of a Notice of impending expiry⁽¹⁾ of the anti-dumping measures in force on the imports of certain hot-rolled flat products of iron, non-alloy or other alloy steel originating in Türkiye ('the country concerned'), the European Commission ('the Commission') has received a request for review pursuant to Article 11(2) of Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union⁽²⁾ ('the basic Regulation').

1. Request for review

The request was submitted on 1 April 2026 by Eurofer ('the applicant') on behalf of the Union industry of certain hot-rolled flat products of iron, non-alloy or other alloy steel in the sense of Article 5(4) of the basic Regulation.

An open version of the request and the analysis of the degree of support by Union producers for the request are available in the file for inspection by interested parties. Section 5.6 of this Notice provides information about access to the file for interested parties.

2. Product under review

The product subject to this review is flat-rolled products of iron, non-alloy steel or other alloy steel, whether or not in coils (including 'cut-to-length' and 'narrow strip' products), not further worked than hot-rolled, not clad, plated or coated, originating in Türkiye

The following products are excluded:

- (i) products of stainless steel and grain-oriented silicon electrical steel;
 - (ii) products of tool steel and high-speed steel;
 - (iii) products, not in coils, without patterns in relief, of a thickness exceeding 10 mm and of a width of 600 mm or more;
 - (iv) products, not in coils, without patterns in relief, of a thickness of 4,75 mm or more but not exceeding 10 mm and of a width of 2 050 mm or more;
 - (v) products whose (a) width is 350 mm or less, and (b) whose thickness is 50 mm or more, regardless of the length of the product
- ('the product under review')

The product under review currently falls under CN codes 7208 10 00, 7208 25 00, 7208 26 00, 7208 27 00, 7208 36 00, 7208 37 00, 7208 38 00, 7208 39 00, 7208 40 00, 7208 52 10, 7208 52 99, 7208 53 00, 7208 54 00, ex 7211 13 00 (TARIC code 7211 13 00 19), ex 7211 14 00 (TARIC codes 7211 14 00 10, 7211 14 00 95), ex 7211 19 00 (TARIC codes 7211 19 00 10 7211 19 00 95), ex 7225 19 10 (TARIC code 7225 19 10 90), 7225 30 90, ex 7225 40 60 (TARIC code 7225 40 60 90), 7225 40 90, ex 7226 19 10 (TARIC code 7226 19 10 95), ex 7226 91 91 (TARIC code 7226 91 91 19) and 7226 91 99. The CN and TARIC codes are given for information only without prejudice to a subsequent change in the tariff classification.

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Commission Implementing Regulation (EU) 2021/1100 ⁽³⁾.

4. Grounds for the review

The request is based on the grounds that the expiry of the measures would be likely to result in continuation of dumping and continuation of injury to the Union industry. As an alternative, the applicant also provided sufficient evidence demonstrating likelihood of recurrence of both dumping and injury.

4.1. Allegation of likelihood of continuation or recurrence of dumping

The allegation of continuation of dumping is based on a comparison of domestic prices for Türkiye based on readily available data, i.e. various benchmarks from international databases such as Orbis, Fastmarkets, Kallanish, MEPS, and SBB Platts, with the export price (at ex-works level) of the product under review when sold for export to the Union, also based on various benchmarks from international databases such as Orbis, Fastmarkets, SBB Platts, and CRU.

In addition, the allegation of likelihood of continuation of dumping is also based on a comparison between a normal value based on the import price of hot-rolled flat products of iron, non-alloy or other alloy steel into Türkiye with the export price (at ex-works level) of the product under review when sold for export to the Union.

On the basis of the above comparison, which shows dumping, the applicant alleges that there is a likelihood of continuation of dumping from Türkiye.

The applicant also alleges the likelihood of recurrence of dumping. This allegation is based on a comparison of the import price of hot-rolled flat products of iron, non-alloy or other alloy steel into Türkiye with the Turkish export price to third countries other than the EU.

In addition, the applicant has provided sufficient evidence that, should measures be allowed to lapse, the current import level of the product under review from Türkiye to the Union is likely to increase due to the existence of spare capacity, the lack of domestic consumption and in third countries to absorb excess capacity, and the attractiveness of the Union market in terms of prices and size.

4.2. Allegation of likelihood of continuation of injury

The applicant alleges the likelihood of continuation of injury. In this respect the applicant argues that imports of the product under review from the country concerned to the Union have remained significant in absolute terms and in terms of market shares.

The applicant claimed that the volume and the prices of the imported product under review have, among other consequences, had a negative impact on the level of prices charged by the Union industry, resulting in substantial adverse effects on the financial situation of the Union industry.

Irrespective of whether imports from Türkiye continued to cause injury, the applicant has provided sufficient evidence that, should measures be allowed to lapse, the current import level of the product under review from Türkiye to the Union is likely to increase due to the existence of spare capacity in Türkiye. In that respect, the applicant alleges that the European Union is a commercially attractive market, and that any further substantial increase of imports at dumped prices from the country concerned would likely lead to the aggravation of the already injurious situation for the Union producers should measures be allowed to lapse.

Thus, there is a likelihood of recurrence of injury caused by imports of the product under review from Türkiye should measures be allowed to lapse.

⁽³⁾ Commission Implementing Regulation (EU) 2021/1100 of 5 July 2021 imposing a definitive anti-dumping duty and definitively collecting the provisional duty imposed on imports of certain hot-rolled flat products of iron, non-alloy or other alloy steel originating in Turkey (OJ L 238, 6.7.2021, p. 32, ELI: http://data.europa.eu/eli/reg_impl/2021/1100/oj).

5. Procedure

Having determined, after consulting the Committee established by Article 15(1) of the basic Regulation, that sufficient evidence of a likelihood of dumping ⁽⁴⁾ and injury exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

The expiry review will determine whether the expiry of the measures would be likely to lead to a continuation or recurrence of dumping of the product under review originating in Türkiye and a continuation or recurrence of injury to the Union industry.

5.1. Review investigation period and period considered

The investigation of a continuation or recurrence of dumping will cover the period from 1 April 2025 to 31 March 2026 ('the review investigation period'). The examination of trends relevant for the assessment of the likelihood of a continuation or recurrence of injury will cover the period from 1 January 2023 to the end of the review investigation period ('the period considered').

5.2. Comments on the request and the initiation of the investigation

All interested parties wishing to comment on the request (including matters pertaining to recurrence of injury and causality) or any aspects regarding the initiation of the investigation (including the degree of support for the request) must do so within 37 days of the date of publication of this Notice in the *Official Journal of the European Union* ⁽⁵⁾.

Any request for a hearing with regard to the initiation of the investigation must be submitted within 15 days of the date of publication of this Notice.

5.3. Procedure for the determination of a likelihood of continuation or recurrence of dumping

In an expiry review, the Commission examines exports that were made to the Union in the review investigation period and, irrespective of exports to the Union, considers whether the situation of the companies producing and selling the product under review in the country concerned is such that exports at dumped prices to the Union would be likely to continue or recur if measures expire.

Therefore, all producers ⁽⁶⁾ of the product under review from the country concerned, including those that did not cooperate in the investigation(s) leading to the measures in force, are invited to participate in the Commission investigation.

5.3.1. Investigating producers in the country concerned

In view of the potentially large number of producers in Türkiye involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit the producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all producers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to provide the Commission with information on their companies within 7 days of the date of publication of this Notice. This information must be provided via TRON.tdi at the following address: <https://tron.trade.ec.europa.eu/investigations/case-view?caseId=2870>. Tron access information can be found in sections 5.6 and 5.9 below.

⁽⁴⁾ In light of the information available, the Commission considers that there is sufficient evidence tending to show that, due to significant distortions affecting prices and costs, the use of domestic prices and costs in the country concerned is inappropriate, thus warranting the initiation of an investigation on the basis of Article 2(6a) of the basic Regulation.

⁽⁵⁾ All references to the publication of this Notice will be references to publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

⁽⁶⁾ A producer is any company in the country concerned which produces the product under review, including any of its related companies involved in the production, domestic sales or exports of the product under review.

In order to obtain the information it deems necessary for the selection of the sample of producers, the Commission will also contact the authorities of the country concerned and may contact any known associations of producers in the country concerned.

If a sample is necessary, the producers will be selected based on the largest representative volume of production, sales or exports which can reasonably be investigated within the time available. All known producers in the country concerned, the authorities of the country concerned and associations of producers will be notified by the Commission, via the authorities of the country concerned if appropriate, of the companies selected to be in the sample.

Once the Commission has received the necessary information to select a sample of producers, it will inform the parties concerned of its decision whether they are included in the sample. The sampled producers will have to submit a completed questionnaire within 30 days from the date of notification of the decision of their inclusion in the sample, unless otherwise specified.

The Commission will add a note to the file for inspection by interested parties reflecting the sample selection. Any comment on the sample selection must be received within 3 days of the date of notification of the sample decision.

A copy of the questionnaire for producers in the country concerned is available in the file for inspection by interested parties and on DG Trade and Economic Security's website <https://tron.trade.ec.europa.eu/investigations/case-view?caseId=2870>

Without prejudice to the possible application of Article 18 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating.

5.3.2. Investigating unrelated importers ⁽⁷⁾ ⁽⁸⁾

Unrelated importers of the product under review from the country concerned to the Union, including those that did not cooperate in the investigation leading to the measures in force, are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. These parties must do so within 7 days of the date of publication of this Notice by providing the Commission with the information on their company(ies) requested in the Annex to this Notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

⁽⁷⁾ Only importers not related to producers in the country concerned can be sampled. Importers that are related to producers have to fill in Annex I to the questionnaire for these producers. In accordance with Article 127 of Commission Implementing Regulation (EU) 2015/2447 of 24 November 2015 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, two persons shall be deemed to be related if: (a) they are officers or directors of the other person's business; (b) they are legally recognised partners in business; (c) they are employer and employee; (d) a third party directly or indirectly owns, controls or holds 5 % or more of the outstanding voting stock or shares of both of them; (e) one of them directly or indirectly controls the other; (f) both of them are directly or indirectly controlled by a third person; (g) together they control a third person directly or indirectly; or (h) they are members of the same family (OJ L 343, 29.12.2015, p. 558). In accordance with Article 5(4) of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, "person" means a natural person, a legal person, and any association of persons which is not a legal person but which is recognised under Union or national law as having the capacity to perform legal acts (OJ L 269, 10.10.2013, p. 1).

⁽⁸⁾ The data provided by unrelated importers may also be used in relation to aspects of this investigation other than the determination of dumping.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under review from the country concerned in the Union that can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

The Commission will also add a note to the file for inspection by interested parties reflecting the sample selection. Any comment on the sample selection must be received within 3 days of the date of notification of the sample decision.

In order to obtain the information it deems necessary for its investigation, the Commission will make available questionnaires to the sampled unrelated importers. Those parties must submit a completed questionnaire within 30 days from the date of the notification of the sample selection, unless otherwise specified.

A copy of the questionnaire for unrelated importers is available in the file for inspection by interested parties and on DG Trade and Economic Security's website <https://tron.trade.ec.europa.eu/investigations/case-view?caseId=2870>

5.4. Procedure for the determination of a likelihood of a continuation or recurrence of injury and investigating Union producers

In order to establish whether there is a likelihood of a continuation or recurrence of injury to the Union industry, the Commission invites Union producers of the product under review to participate in the investigation.

In view of the large number of Union producers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission has decided to limit to a reasonable number the Union producers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling is carried out in accordance with Article 17 of the basic Regulation.

The Commission has provisionally selected a sample of Union producers. Details can be found in the file for inspection by interested parties.

Interested parties are hereby invited to comment on the provisional sample. In addition, other Union producers, or representatives acting on their behalf, including Union producers who did not cooperate in the investigation(s) leading to the measures in force, that consider that there are reasons why they should be included in the sample must contact the Commission within 7 days of the date of publication of this Notice. All comments regarding the provisional sample must be received within 7 days of the date of publication of this Notice, unless otherwise specified.

The Commission will notify all known Union producers and/or associations of Union producers of the companies finally selected to be in the sample.

The sampled Union producers will have to submit a completed questionnaire within 30 days from the date of notification of the decision of their inclusion in the sample, unless otherwise specified.

A copy of the questionnaire for Union producers is available in the file for inspection by interested parties and on DG Trade and Economic Security's website <https://tron.trade.ec.europa.eu/investigations/case-view?caseId=2870>

5.5. Procedure for the assessment of Union interest

Should the likelihood of continuation or recurrence of dumping and injury be confirmed, a decision will be reached, pursuant to Article 21 of the basic Regulation, as to whether maintaining the anti-dumping measures would not be against the Union interest.

Union producers, importers and their representative associations, users and their representative associations, trade unions and representative consumer organisations are invited to provide the Commission with information on the Union interest.

Information concerning the assessment of the Union interest must be provided within 37 days of the date of publication of this Notice, unless otherwise specified. This information may be provided either in a free format or by completing a questionnaire prepared by the Commission.

A copy of the questionnaires, including the questionnaire for users of the product under review, is available in the file for inspection by interested parties and on DG Trade and Economic Security's website <https://tron.trade.ec.europa.eu/investigations/case-view?caseId=2870>. In any case, information submitted pursuant to Article 21 of the basic Regulation will only be taken into account if supported by factual evidence at the time of submission, which substantiates its validity.

5.6. ***Interested parties***

In order to participate in the investigation, interested parties, such as producers in the country concerned, Union producers, importers and their representative associations, users and their representative associations, trade unions and representative consumer organisations first have to demonstrate that there is an objective link between their activities and the product under review placed on the Union market or the like product produced by the Union industry.

Producers in the country concerned, Union producers, importers and representative associations who made information available in accordance to the procedures described in sections 5.3.1, 5.3.2 and 5.4 will be considered as interested parties if there is an objective link between their activities and the product under review placed on the Union market or the like product produced by the Union industry.

The other parties mentioned in the first paragraph of this section will only be able to participate in the investigation as interested party from the moment they make themselves known, and provided that there is an objective link between their activities and the product under review placed on the Union market or the like product produced by the Union industry. Being considered as an interested party is without prejudice to the application of Article 18 of the basic Regulation.

Access to the file available for inspection for interested parties is made via Tron.tdi at the following address: <https://tron.trade.ec.europa.eu/tron/TDI>. Please follow the instructions on that page to get access ⁽⁹⁾.

5.7. ***Other written submissions***

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice.

5.8. ***Possibility to be heard by the Commission investigation services***

All interested parties may request to be heard by the Commission investigation services. Any request to be heard must be made in writing and must specify the reasons for the request as well as a summary of what the interested party wishes to discuss during the hearing. The hearing will be limited to the issues set out by the interested parties in writing beforehand.

In principle, hearings will not be used to present factual information which is not yet on file. Nevertheless, in the interest of good administration and to enable Commission services to progress with the investigation, interested parties may be directed to provide new factual information after a hearing.

5.9. ***Instructions for making written submissions and sending completed questionnaires and correspondence***

Information submitted to the Commission for the purpose of trade defence investigations shall be free from copyright. Interested parties, before submitting to the Commission information and/or data which is subject to third party copyright, must request specific permission to the copyright holder explicitly allowing the Commission a) to use the information and data for the purpose of this trade defence proceeding and b) to provide the information and/or data to interested parties to this investigation in a form that allows them to exercise their rights of defence.

In order to complete the investigation within the mandatory deadlines, the Commission will not accept submissions from interested parties after the deadline to provide comments on the final disclosure or, if applicable, after the deadline to provide comments on the additional final disclosure.

⁽¹⁰⁾ A 'Sensitive' document is a document which is considered confidential pursuant to Article 19 of the basic Regulation and Article 6 of the WTO Agreement on Implementation of Article VI of the GATT 1994 (Anti-Dumping Agreement). It is also a document protected pursuant to Article 4 of Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents (OJ L 145, 31.5.2001, p. 43).

8. Possibility to comment on other parties' submissions

In order to guarantee the rights of defence, interested parties should have the possibility to comment on information submitted by other interested parties. When doing so, interested parties may only address issues raised in the other interested parties' submissions and may not raise new issues.

Comments on the information provided by other interested parties in reaction to the disclosure of the definitive findings should be submitted within 5 days from the deadline to comment on the definitive findings, unless otherwise specified. If there is an additional final disclosure, comments on the information provided by other interested parties in reaction to this further disclosure should be made within 1 day from the deadline to comment on this further disclosure, unless otherwise specified.

The outlined timeframe is without prejudice to the Commission's right to request additional information from interested parties in duly justified cases.

9. Extension to time limits specified in this Notice

Any extension to the time limits provided for in this Notice should only be requested in exceptional circumstances and will only be granted if duly justified. In any event, any extensions to the deadline to reply to questionnaires will be limited normally to 3 days, and as a rule will not exceed 7 days. Regarding time limits for the submission of other information specified in the Notice of initiation, extensions will be limited to 3 days unless exceptional circumstances are demonstrated.

10. Non-cooperation

In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 18 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

11. Hearing Officer

Interested parties may request the intervention of the Hearing Officer for trade proceedings. The Hearing Officer reviews requests for access to the file, disputes regarding the confidentiality of documents, requests for extension of time limits and any other request concerning the rights of defence of interested parties and third parties as may arise during the proceeding.

The Hearing Officer may organise hearings and mediate between the interested party or parties and the Commission services to ensure that the interested parties' rights of defence are being fully exercised. A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. The Hearing Officer will examine the reasons for the requests. These hearings should only take place if the issues have not been settled with the Commission services in due course.

Any request must be submitted in good time and expeditiously so as not to jeopardise the orderly conduct of proceedings. To that effect, interested parties should request the intervention of the Hearing Officer at the earliest possible time following the occurrence of the event justifying such intervention.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade and Economic Security's website: https://policy.trade.ec.europa.eu/contacts/hearing-officer_en

12. Possibility to request a review under Article 11(3) of the basic Regulation

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any interested party considers that a review of the measures is warranted so as to allow for the possibility to amend the measures, that party may request a review pursuant to Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this Notice, may contact the Commission at the address given above.

13. Processing of personal data

Any personal data collected in this investigation will be treated in accordance with Regulation (EU) 2018/1725 of the European Parliament and of the Council ⁽¹⁾.

A data protection notice that informs all individuals of the processing of personal data in the framework of Commission's trade defence activities is available on DG Trade and Economic Security's website: <https://europa.eu/!vr4g9W>
